NCI Gadi: site queues

```
# Login to the NCI Gadi HPC
```

```
ssh -i <your-SSH-key> <your-username>@gadi.nci.org.au
```

```
# Show all the queue names
```

```
qstat -q
```

```
# Show details of queues that are commonly used
```

```
qstat -q | grep -v TBD | uniq
```

```
# Show more details of a specific queue
```

```
qstat -q TBD
```

```
# Show the capabilities of all the compute nodes in the system
```

```
pbsnodes -a
```

```
# Logout
```

```
exit
```
